Stream No. 4 (1 notice) East side Gravina Bay.

Is 25 feet wide and 10 inches deep.

Has a rough granite boulder bottom with a little granite gravel mixed the boulders.

Has a rapid place about 200 yards from mean high tide mouth.

The drop is 4 or 5 feet. The bed above that is much better, lots of small granite gravel. I went up it about a half mile looking for a lake. There was none.

Sept. 16, 1927 visit,--7 fish.

Stream No. 5 (2 notices) Comfort Cove.

Is 40 feet wide and 8 inches deep.

Has a rough granite boulder bottom, with a little fine gravel mixed with the boulders.

It appears to be accessible for fish for about one mile.

The head would go dry for about 200 yards at low tide; another small stream comes in on north side about 400 yards from head. It is 8 feet wide and 4 inches deep. The bottom same as other one.

Sept. 16, 1927 visit,--200 fish.
